

PROSTAGLANDINS LEUKOTRIENES AND ESSENTIAL FATTY ACIDS

Prostaglandins Leukotrienes and Essential Fatty Acids (1992) 45, 333-336
© Longman Group UK Ltd 1992

Subject Index to Volume 45

A

Anaphylaxis *see* Forssman anaphylaxis

B

- BN 52021 (platelet-activating factor antagonist), effect on platelet-activating factor production during haemodialysis of, 37
- Bone: proliferative effect of prostaglandin D₂ on osteoblast-like cells, 267
- Bradykinin, interleukin-1 β causes amplification of decidual cell prostaglandin F_{2a} production in response to epidermal growth factor and, 137
- Brain
- intratumoural gammalinolenic acid therapy of human glioma, 181
 - nicardipine reduces the levels of leukotriene C₄ and prostaglandin E₂ following different ischaemic periods in rat brain tissue, 223
- Breast cancer
- eicosanoid levels before and after mastectomy, 319
 - regulation of proliferation of rat mammary tumour cells by inhibitors of cyclooxygenase and lipoxygenase, 21
- Bronchoconstriction: platelet-activating factor and the role of the vagus nerve in the breathing pattern of the pig, 143

C

- Calcium, dietary: and arachidonic acid metabolism and eicosanoid production, 1
- Calcium channel blockers
- isradipine-induced inhibition of extracellular matrix production, role of prostaglandin I₂ in, 289
 - nicardipine reduces the levels of leukotriene C₄ and prostaglandin E₂ following different ischaemic periods in rat brain tissue, 223
- Colitis, trinitrobenzene sulfonic acid-induced, effect of misoprostol therapy following, 275
- Colon: sequential incorporation of ³H- and ¹⁴C-arachidonic acid during 24 hours in rabbit colonic explants cultured in vitro, 77
- Colony-stimulating factor-1 (CSF-1), separate regulation of phospholipase A₂ and cyclooxygenase by CSF-1 receptor and, 43
- Cyclooxygenase
- inhibition of, effect on isradipine-induced diminution of extracellular matrix production of, 289
 - inhibitors of, regulation of proliferation of rat mammary tumour cells by, 21

separate regulation by colony-stimulating factor-1 receptor/CSF-1 of phospholipase A₂ and, 43

D

- Delta-5-desaturase activity in the Inuit, 125
- Diabetes mellitus: effects of prostaglandins and of leukotriene C₄ on glucose metabolism in uteri isolated from ovariectomized-diabetic rats, 227
- Dialysis, effect of BN 52021 on platelet-activating factor during, 37
- Diarrhoeogenic effect of prostaglandin E₂, gastrointestinal electrical activity in the conscious piglet and, 67
- Diet(ary)
- comparative study between the effects of cod liver oil and liquid lard intake on intraocular pressure in rabbits, 239
 - and essential fatty acid status of neonates born to Inuit mothers, 125
 - linoleic acid, effects on phospholipid fatty acid composition and eicosanoid production in leucocytes and gill cells of Atlantic salmon of, 197
 - sodium potassium calcium magnesium and trace elements: and arachidonic acid metabolism and eicosanoid production, 1
- Dihomogammalinolenic acid in neonates born to Inuit mothers, 125
- Diuretics: torasemide inhibits thromboxane A₂-induced contraction in the isolated canine coronary artery, 121
- Dog: characterization of leukotriene B₅ synthesis in canine polymorphonuclear leukocytes, 283

E

- 5,8,11,14-Eicosatetraenoic acid (ETYA), differential effects on prostate PC3 and monoblastoid U937 ultrastructure of, 151
- Elements, dietary levels of: and arachidonic acid metabolism and eicosanoid production, 1
- Embryo prostaglandins, probable influence on the differential ovum transport in pregnant and cycling rats of, 211
- Endometriosis, eicosanoid production in, 313
- Endothelial cells, vascular
- activation by low density lipoprotein of 15-lipoxygenase in, 49
 - cytoprotective effect of polyphenolic compounds isolated from *Lonicera japonica* Thunb in hydrogen peroxide-induced injury to, 307
 - cytoprotective effect of reduced glutathione in hydrogen peroxide-induced injury to, 299
 - sera from pre-eclamptic patients contain factor(s) that stimulate prostacyclin production by, 191
- Epidermal growth factor, interleukin-1 β causes amplification of

decidua cell prostaglandin $F_{2\alpha}$ production in response to bradykinin and, 137

Experimental allergic encephalomyelitis, potential role of prostaglandins and leukotrienes in, 249

Extracellular matrix production, effect of isradipine on, 289

Eye: a comparative study between the effects of cod liver oil and liquid lard intake on intraocular pressure in rabbits, 239

F

Forssman anaphylaxis, effect in guinea-pigs of three novel thromboxane A_2 receptor antagonists on the increase in pulmonary pressure caused by, 233

Free radicals *see* Oxidative stress

G

Gallbladder eicosanoid synthesis and the role of eicosanoids in experimental and clinical gallbladder disease, 167

Gamma-linolenic acid: intratumoural therapy of human glioma, 181

Gastrointestinal tract

electrical activity in conscious piglet

effect of infusion of a diarrhoeogenic dose of prostaglandin E_2 on, 67

effect of infusion of prostaglandin $F_{2\alpha}$ on, 71

hydrocortisone has a biphasic effect on rat gastric mucosal prostaglandin generation in vivo, 329

misoprostol therapy following trinitrobenzene sulfonic acid-induced colitis accelerates healing, 275

sequential incorporation of 3H - and ^{14}C -arachidonic acid during 24 hours in rabbit colonic explants cultured in vitro, 77

Gentamicin-induced acute renal failure, role of thromboxane A_2 synthesis in, 131

Glioma, human, intratumoural gamma-linolenic acid therapy of, 181

Glucocorticoids

hydrocortisone has a biphasic effect on rat gastric mucosal prostaglandin generation in vivo, 329

and prostaglandin synthesis, 85

Glucose metabolism in uteri isolated from ovariectomized-diabetic rats, effects of prostaglandins and of leukotriene C_4 on, 227

Glutathione, cytoprotective effect in hydrogen peroxide-induced endothelial cell injury of, 299

H

Haemodialysis, effect of BN 52021 on platelet-activating factor production during, 37

Heart: torasemide inhibits thromboxane A_2 -induced contraction in the isolated canine coronary artery, 121

Hydrocortisone has a biphasic effect on rat gastric mucosal prostaglandin generation in vivo, 329

Hydrogen peroxide-induced endothelial cell injury

cytoprotective effect of polyphenolic compounds isolated from *Lonicera japonica* Thunb in, 307

cytoprotective effect of reduced glutathione in, 299

Hydroxyeicosatetraenoic acid(s) production

by platelets, effect during haemodialysis of BN 52021 on, 37

by rat mammary tumour cells, effects of inhibitors of cyclooxygenase and lipoxygenase on, 21

by thioglycollate broth-elicited peritoneal macrophages, 59

by vascular endothelial cells: activation of 15-lipoxygenase

by low density lipoprotein, 49

Hyperoxic lung injury in newborn rabbits, evaluation of a leukotriene receptor antagonist in prevention of, 159

Hypertension: torasemide inhibits thromboxane A_2 -induced contraction in the isolated canine coronary artery, 121

I

ICI 198, 615 (leukotriene receptor antagonist), effectiveness in prevention of hyperoxic lung damage in newborn rabbits of, 159

Insulin: and effects of prostaglandins and of leukotriene C_4 on glucose metabolism in uteri isolated from ovariectomized-diabetic rats, 227

Interleukin- 1β causes amplification of decidua cell prostaglandin $F_{2\alpha}$ production in response to bradykinin and epidermal growth factor, 137

Intraocular pressure, comparative study in rabbits between the effects of cod liver oil and liquid lard intake on, 239

Inuit and Caucasian mothers, comparison between essential fatty acid status of neonates born to, 125

Ischaemia, cerebral: nicardipine reduces the levels of leukotriene C_4 and prostaglandin E_2 following different ischaemic periods in rat brain tissue, 223

Ischaemia-reperfusion injury and inhibition of lipid peroxidation by prostaglandin oligomeric derivatives, 217

role of leukotriene B_4 in the pathogenesis of, 113

Isradipine-induced inhibition of extracellular matrix production, role of prostaglandin I_2 in, 289

K

Kidney: role of thromboxane A_2 synthesis in gentamicin-induced acute renal failure, 131

L

Labour *see under* Pregnancy

Leukotriene B_4

in canine polymorphonuclear leukocytes, 283

and pathogenesis of hepatic ischaemia-reperfusion injury in the rat, 113

in thioglycollate broth-elicited rat peritoneal macrophages, 59

Leukotriene C_4

effects on glucose metabolism in uteri isolated from ovariectomized-diabetic rats of, 227

in rat brain tissue following different ischaemic periods, effect of nicardipine on, 223

in thioglycollate broth-elicited rat peritoneal macrophages, 59

Leukotriene D_4

antagonist ICI 198,615, effectiveness in prevention of hyperoxic lung injury in newborn rabbits of, 159

in thioglycollate broth-elicited peritoneal macrophages, 59

Leukotriene E_4 receptor antagonist ICI 198,615, effectiveness in prevention of hyperoxic lung injury in newborn rabbits of, 159

Linoleic acid

dietary, effects on phospholipid fatty acid composition and eicosanoid production in leucocytes and gill cells of Atlantic salmon of, 197

in neonates born to Inuit mothers, 125

Lipid peroxidation, inhibition by prostaglandin oligomeric derivatives of, 217

Lipocortins: and effects of glucocorticoids on prostaglandin synthesis, 85

Lipoxygenase

activation by low density lipoprotein in vascular endothelial cells: relationship to the oxidative modification of low density lipoprotein, 49

inhibitors of, regulation of proliferation of rat mammary tumour cells by, 21

monoclonal antibodies against human leucocyte 5-lipoxygenase, 259

platelet, effect during haemodialysis of BN 52021 on, 37

Liver: role of leukotriene B_4 in the pathogenesis of hepatic ischaemia-reperfusion injury in the rat, 113

Lonicera japonica Thunb, inhibition of platelet activation and endothelial cell injury by polyphenolic compounds isolated from, 307

Low density lipoprotein, role of 15-lipoxygenase in oxidative modification by endothelial cells of, 49

M

Macrophages, peritoneal: time-dependent alterations of leukotriene production and catabolism following intraperitoneal injection of thioglycollate broth, 59

Magnesium, dietary: and arachidonic acid metabolism and eicosanoid synthesis, 1

Mastectomy, eicosanoids in breast cancer patients before and after, 319

Menstrual cycle: prostaglandins and premenstrual syndrome, 33
Misoprostol therapy following trinitrobenzene sulfonic acid-induced colitis accelerates healing, 275

Monoclonal antibodies against human leukocyte 5-lipoxygenase, 259

Multiple sclerosis, potential role of prostaglandins and leukotrienes in, 249

N

Neonates born to Inuit and Caucasian mothers, comparison between essential fatty acid status of, 125

Neutrophils *see* Polymorphonuclear leukocytes

Nicardipine reduces the levels of leukotriene C₄ and prostaglandin E₂ following different ischaemic periods in rat brain tissue, 223

Nitric oxide, synergism on platelet aggregation between prostaglandin E₁ metabolites and, 207

O

Osteoblast-like cells, proliferative effect of prostaglandin D₂ on, 267

Ovum: probable influence of ova and embryo prostaglandins in the differential ovum transport in pregnant and cycling rats, 211

Oxidative stress

and cytoprotective effect of polyphenolic compounds isolated from *Lonicera japonica* Thunb in hydrogen peroxide-induced endothelial cell injury, 307

and cytoprotective effect of reduced glutathione in hydrogen peroxide-induced endothelial cell injury, 299

and differential effects of 5,8,11,14-eicosatetraenoic acid on prostate PC3 and monoblastoid U937 ultrastructure, 151
and inhibition of lipid peroxidation by prostaglandin oligomeric derivatives, 217

P

Pertussis toxin-sensitive GTP-binding protein, activation by prostaglandin D₂ in osteoblast-like cells of, 267

Phosphoinositide hydrolysis, effect in osteoblast-like cells of prostaglandin D₂ on, 267

Phospholipase A₂, separate regulation by colony-stimulating factor-1 receptor/CSF-1 of cyclooxygenase and, 43

Phospholipid composition

in leucocytes and gill cells of Atlantic salmon, effects of increasing dietary linoleic acid on, 197

in neonates born to Inuit mothers, 125

sequential incorporation of ³H- and ¹⁴C-arachidonic acid during 24 hours in rabbit colonic explants cultured in vitro, 77

Platelet(s)

aggregation of, synergism between prostaglandin E₁ metabolites and nitric oxide on, 207

aggregation of and thromboxane synthesis by, effects of

polyphenolic compounds isolated from *Lonicera japonica* Thunb on, 307

lipoxygenase activity of, effect during haemodialysis of BN 52021 on, 37

Platelet-activating factor

production during haemodialysis, effect of BN 52021 on, 37
and role of vagus nerve in the breathing pattern of the pig, 143

Polymorphonuclear leukocytes (PMNs)

canine, characterization of leukotriene B₄ synthesis in, 283
and role of leukotriene B₄ in the pathogenesis of hepatic ischaemia-reperfusion injury in the rat, 113

Potassium, dietary: and arachidonic acid metabolism and eicosanoid production, 1

Pre-eclampsia: sera from pre-eclamptic patients contain factor(s) that stimulate prostaglandin production by human endothelial cells, 191

Pregnancy

essential fatty acid status of neonates born to Inuit mothers, 125

interaction of paracrine factors during labour: interleukin-1 β causes amplification of decidua cell prostaglandin F_{2 α} production in response to bradykinin and epidermal growth factor, 137

probable influence of ova and embryonic prostaglandins in the differential ovum transport of pregnant and cycling rats, 211

sera from pre-eclamptic patients contain factor(s) that stimulate prostacyclin production by human endothelial cells, 191

Premenstrual syndrome, prostaglandins and, 33

Prostacyclin (PGI₂)

and cytoprotective effect of reduced glutathione in hydrogen peroxide-induced endothelial cell injury, 299

and diminished extracellular matrix production induced by isradipine, 289

sera from pre-eclamptic patients contain factor(s) that stimulate prostacyclin production by human endothelial cells, 191

Prostaglandin B₂ oligomeric derivative, inhibition of lipid peroxidation by, 217

Prostaglandin D₂, proliferative effect on osteoblast-like cells of, 267

Prostaglandin E

effects of PGE₁ on glucose metabolism in uteri isolated from ovariectomized-diabetic rats, 227

inhibition of lipid peroxidation by PGE₁ and PGB₂ oligomeric derivatives, 217

measurement of main metabolite 13,14-dihydro-15-keto-prostaglandin E by radioimmunoassay using methyl oxime stabilization, 185

misoprostol therapy following trinitrobenzene sulfonic acid-induced colitis accelerates healing, 275

in patients with premenstrual syndrome, 33

probable influence of ova and embryo PGE₁ in the differential ovum transport in pregnant and cycling rats, 211

synergism between PGE₁ metabolites and nitric oxide on platelet aggregation, 207

Prostaglandin E₂

in breast cancer patients before and after mastectomy, 319
diarrhoeogenic effect of, gastrointestinal electrical activity in the conscious piglet and, 67

effects on glucose metabolism in uteri isolated from ovariectomized-diabetic rats of, 227

in endometriosis, 313

gastric mucosal, biphasic effect of hydrocortisone on, 329

in patients with premenstrual syndrome, 33

in rat brain tissue following different ischaemic periods, effect of nicardipine on, 223

in rat mammary tumour cells, effects of inhibitors of cyclooxygenase and lipoxygenase on, 21

untriggered colony-stimulating factor-1 receptor induces an opposite effect to that induced by CSF-1 receptor and its ligand, 43

Prostaglandin E 9-ketoreductase, effects of saturated fatty acids on, 245

6-keto-Prostaglandin $F_{1\alpha}$
in breast cancer patients before and after mastectomy, 319
in endometriosis, 313
gastric mucosal, biphasic effect of hydrocortisone on, 329
in patients with premenstrual syndrome, 33

Prostaglandin $F_{2\alpha}$
decidua cell, synergism between interleukin-1 β bradykinin and epidermal growth factor in, 137
effects on glucose metabolism in uteri isolated from ovariectomized-diabetic rats of, 227
in endometriosis, 313
gastrointestinal electrical activity in the conscious piglet following infusion of, 71
in patients with premenstrual syndrome, 33
in rat mammary tumour cells, effects of inhibitors of cyclooxygenase and lipoxygenase on, 21

Prostaglandin I_2 see Prostacyclin

R

Renal failure, gentamicin-induced acute, role of thromboxane A_2 synthesis in, 131

Respiratory system
effect of three novel thromboxane A_2 receptor antagonists on the increase in pulmonary pressure caused by Forsman anaphylaxis in guinea-pigs, 233
evaluation of a leukotriene receptor antagonist in prevention of hyperoxic lung injury in newborn rabbits, 159
platelet-activating factor and the role of the vagus nerve in the breathing pattern of the pig, 143

S

Salmo salar (Atlantic salmon), effects of increasing linoleic acid on phospholipid fatty acid composition and eicosanoid production in leucocytes and gill cells of, 197

Saturated fatty acids, effects on prostaglandin E 9-ketoreductase of, 245

Skin: essential fatty acids are not required for wound healing, 293

Sodium, dietary: and arachidonic acid metabolism and eicosanoid production, 1

Steroids
glucocorticoids and prostaglandin synthesis, 85
hydrocortisone has a biphasic effect on rat gastric mucosal prostaglandin generation in vivo, 329

Stomach: hydrocortisone has a biphasic effect on rat gastric mucosal prostaglandin generation in vivo, 329

T

Thioglycollate broth-elicited peritoneal macrophages, time-dependent alterations of leukotriene production and catabolism by, 59

Thromboxane A_2
in breast cancer patients before and after mastectomy, 319
effect of three novel TXA_2 receptor antagonists on the increase in pulmonary pressure caused by Forsman anaphylaxis in guinea-pigs, 233
and gentamicin-induced acute renal failure, 131
torasemide inhibits contraction of the isolated canine coronary artery induced by, 121

Thromboxane B_2

in endometriosis, 313

in patients with premenstrual syndrome, 33
platelet, effects of polyphenolic compounds isolated from *Lonicera japonica* Thunb on, 307

in rat mammary tumour cells, effects of inhibitors of cyclooxygenase and lipoxygenase on, 21

Torasemide inhibits thromboxane A_2 -induced contraction in the isolated canine coronary artery, 121

Trace elements, dietary: and arachidonic acid metabolism and eicosanoid production, 1

Tumour(s)

eicosanoid levels in breast cancer patients before and after mastectomy, 319

intratumoural gamma-linolenic acid therapy of human glioma, 181

regulation of proliferation of rat mammary tumour cells by inhibitors of cyclooxygenase and lipoxygenase, 21

Tyrosine kinases: and separate regulation of phospholipase A_2 and cyclooxygenase by colony-stimulating factor-1 receptor/CSF-1, 43

U

Uterus

effects of prostaglandins and of leukotriene C_4 on glucose metabolism in uteri isolated from ovariectomized-diabetic rats, 227

eicosanoid production in endometriosis, 313

interaction of paracrine factors during labour: interleukin-1 β causes amplification of decidua cell prostaglandin $F_{2\alpha}$ production in response to bradykinin and epidermal growth factor, 137

probable influence of ova and embryo prostaglandins in the differential ovum transport in pregnant and cycling rats, 211

V

Vagus nerve: and effects of platelet-activating factor on respiratory responses in the pig, 143

Vascular system

activation of 15-lipoxygenase by low density lipoprotein in vascular endothelial cells: relationship to the oxidative modification of low density lipoprotein, 49

cytoprotective effect of reduced glutathione in hydrogen peroxide-induced endothelial cell injury, 299

diminished extracellular matrix production induced by isradipine is completely abolished by cyclooxygenase inhibition, 289

inhibition of platelet activation and endothelial cell injury by polyphenolic compounds isolated from *Lonicera japonica* Thunb, 307

nicardipine reduces the levels of leukotriene C_4 and prostaglandin E_2 following different ischaemic periods in rat brain tissue, 223

torasemide inhibits thromboxane A_2 -induced contraction in the isolated canine coronary artery, 121

W

Wound healing, effect of essential fatty acids on, 293
